

SMBsecure™

Patented technology, deployed in minutes, makes securing your organisational data on Windows PC and Mobile Devices a **TOTAL BREEZE!**

Get Data Security & Compliance as part of your everyday data processing.

Uses patented technologies for any standard: POPIA, GDPR, NIST, PCI-DSS, etc.

ENCRYPT

All-in-One Fully Managed Service to De-risk your Business with Data & Email Encryption, Authentication Controls, Device Lock/Kill/Locate, USB Policy, Phishing Simulations, Cyber Risk Training, **Check4Phish™**, Reporting & Proof of Data Encryption.

PC & Mobile Device Encryption

Make use of encryption methods native to your operating system to ensure the most seamless and most secure means of encryption for your data at rest on your PC & Mobile Device. On Windows PCs, you get persistent Bitlocker for Volume level encryption, as well as fully managed key control, key backup & retrieval with real-time encryption risk monitoring for your convenience.

SAFEGUARD

Secure PDF Email Encryption

When sending email containing any personal or sensitive data from Microsoft Outlook on your PC, as the Sender you are the **"Responsible Party"** so send it using secure end-to-end encryption in password-protected portable document format (**PDF**), just like the banks do! The Outlook plugin allows flexible options to send data securely to avoid 3rd party data exposure, earn trust from customers by demonstrating effective security, and remain compliant with the Protection of Personal Information Act (**POPIA**), etc.

PROTECT

Remote Lock / Kill / Locate PCs and Mobile Devices

- Kill device immediately if stolen.
- Quarantine data access until correct access can be confirmed.
- Locate lost or stolen devices.

DEFEND

Phishing Defence & Cyber Security Awareness Training

- Secure your first line of defence, the **Human Layer**.
- Includes **Check4Phish™** for suspicious emails received on PCs.
- Be prepared by learning to identify phishing scams which mimic real-life attack.
- **Cyber Awareness Training**, so you don't fall prey to scams designed to steal your (or your customers') information and money.
- **Become AWARE to Avoid Being a Victim.**

SMBsecure™ provides value-added Protection for Small and Medium Businesses.

Now you can build and maintain trust, compliance, and competitive advantage!

POPI Toolkit

Optional add-on resource kit for **DIY POPI compliance**.

De-Risk Your Business.

Cost-effective encryption & device security for any sized-business or organisation.
